SHERMAN AND HILL.

Fourth Day's Debate on the Cuban Question.

INTEREST AS GREAT AS EVER

The Mercenary Character of the Pending Resolution Opposed by Senator Hill and Upheld by Mr. Sherman—Several Small Bills Passed—Contested Election Cases Argued in the House.

WASHINGTON, March 13.—Senators Sherman and Hill were the conspicuous figures in the Cuban debate in the senate yesterday, the New York senator forcibly urging the mercenary character of the pending resolutions, while Mr. Sherman upheld them with another graphic arraignment of Spain and General Weyler. It was the fourth day of the debate on the conference report and yet there was no evidence of a near approach to a final vote, although Mr. Sherman announced that he would press for a vote at the earliest moment. The galleries continue to be crowded, and yesterday showed no diminution of public interest.

Mr. Hill's opposition to the resolutions was confined to that feature which expressed the purpose of the United States to intervene to protect the legitimate interests of the United States. This, the senator declared, was an ignominious and contemptible attitude. It was placing the cause of human liberty and patriotism on a very low plane, and he urged that the resolutions be defeated in order that they might be amended, and the mercenary features eliminated.

Mr. Sherman's speech was mainly a reassertion of the views he presented when the senate resolutions were adopted. He declared that war in Cuba was a flagrant and the evidences of it abundant. He insisted on his characterization of General Weyler as "the butcher," but conceded that the Spanish minister, Senor Dupuy de Lome, had the full right and the duty of controverting and explaining the statement either in or out of the state department. In the course of his speech Mr. Sherman paid a glowing tribute to the patriotism and fidelity of President Cleveland and his readiness to uphold the country's flag.

At the conclusion of Mr. Sherman's remarks Mr. Morgan secured the floor, but yielded immediately in order that the debate on the Dupont election case could proceed. Mr. Pritchard (Rep., N. C.) addressed the senate in advocacy of the majority report in favor of seating Mr. Dupont.

At the conclusion of his remarks the bill creating the art commission of the United States was taken up on the request of Mr. Hansbrough and passed after Mr. Hoar had secured amendment striking out the proviso that artists and sculptors should not serve on the commission and that the appointees should be learned in literature and the arts.

The senate then passed several more bills on the calendar, among which were: To permit owners of claims to iron and coal mines on forest reservations to perfect their title thereto and to protect a patent therefore.

At 5:35 the senate adjourned.

House Proceedings.

WASHINGTON, March 13.—In the house yesterday during the morning hour a bill was passed extending the time for completing a bridge by the Union Railway company across the Monongahela river.

On motion of Mr. Johnson (Rep., Ind.) a resolution was adopted by which the claim of Coleman, Republican of the Second Louisiana district, to the seat of Mr. Buck, Democrat, was decided in favor of the latter.

The Mr. Daniels (Dem., N. Y.) called up the contested election case of Aldrich vs. Robbins, from the Fourth Alabama district in which the Republicans recommended the seating of Aldrich.

Three hours and a half, he said, were to be allowed on each side for argument. Mr. Moody (Rep., Mass.) spoke in behalf of Mr. Aldrich and Mr. Bartlett (Dem., N. Y.) for Mr. Robbins. Mr. Royce (Rep., Ind.) closed the debate for the day with a speech in favor of seating Mr. Aldrich.

At 5:10 the house adjourned.

DELEGATE FROM ALASKA.

Our Northwestern Territory May Be Represented in Congress.

WASHINGTON, March 13.—The committee on territories of the house yesterday voted to report favorably to the house the bill introduced by Mr. Seranton of Pennsylvania for a delegate from Alaska. Under the bill the delegate is to hold his seat in congress on the same terms as the delegates from other territories.

A vigorous opposition to the bill was made by Mr. Perkins of Iowa. He held that all information secured by the committee from Alaskan officials and agents of the treasury showed existing conditions in Alaska did not warrant a territorial form of government, and that statehood was not to be thought of for many years, if ever. The danger which the bill might bring, he said, was that the delegate would be named by the great commercial companies of Alaska, and be a representative of the interests of those companies rather than of the United States. The other members of the committee present voted for the bill.

EAST LIVERPOOL, O., March 13.—The introduction of bigger screens caused 700 miners to lay down their tools and go out on a strike at the Salineville mines, near here. President Ratchford was first consulted.

BIG BLAZE IN BOSTON.

Nearly Half a Million Dollars' Worth of Property Destroyed.

BOSTON, March 13.—The Pope Manufacturing company's building on Columbus avenue was completely gutted by fire, necessitating a general alarm shortly before 4 o'clock yesterday. The fire caused a loss of between \$350,000 and \$400,000. The block was a magnificent five-story structure of brick, profusely ornamented with terra cotta trimmings.

The blaze started in the boiler room in the basement of the building and spread so rapidly that four ladies and two gentlemen who were taking riding lessons on the fifth floor had barely time to escape. R. W. Hinckley, private secretary to Mr. Albert Pope, and the janitor, W. P. Preston, were hemmed in by smoke and fire on the second floor and made their escape by ladders placed there by the firemen. In the building were 35 or 40 people, but they all got out without injury.

The contents, which were completely ruined, consisted of 1,700 new wheels, 175 second hand wheels and about 20,000 pieces of bicycle fitting, beside several thousand tires.

The Youth's Companion building, one of the most imposing structures in the city, which is separated from the burned building by a 15-foot alley, and the Hoffman House, a 7-story apartment house, across the street, were thoroughly drenched. The Hoffman House was for an hour in great danger, as the strong northwest wind carried the flames nearly half way across the broad avenue. The loss to both buildings by water will aggregate \$10,000.

The fire was practically under control by 5 o'clock, but it was hours before it was entirely subdued.

The Pope company has a total loss on its stock and fixtures conservatively estimated at \$150,000, and \$200,000 on the building. The loss is fully covered by insurance, placed by John C. Paige of this city.

While there were many minor accidents, only one proved serious, that of Matthew Burns of Engine 12, leg broken during a collision of fire apparatus at the fire.

PEACE PREVAILS IN SPAIN.

Rioting Has Been Stopped and Will Hereafter Be Prevented.

NEW YORK, March 13.—A special to The World from Barcelona says:

Owing to the American senate's adjournment of consideration of the beligerency resolution, the Spanish funds are buoyant and exchange is lower even than before the war panic.

The people of this city and district are so much calmer that the civil guards have been withdrawn from the United States consulate and only a few police are now detailed for its protection from possible insult.

Not only was the manifestation of students quickly dispelled by the charge of the guards, but it is announced that orders have been given to fire with ball if such a demonstration is repeated.

In fact religious processions with the crucifix borne aloft and priests praying for rain have taken the place of political demonstrations.

Such a prolonged and dry season of warm weather has been rarely known before. In Catalonia it has caused immense damage to agricultural interests and to the factories in the province.

Another noteworthy fact is that in this prosperous community, a strong sentiment has lately developed admitting the wrongs of Cuba and suggesting autonomy for the island.

Valera, the celebrated Spanish writer, has published a pamphlet urging the people to be calm and even to swallow insults from the United States because of the present Spanish isolation. He advises his readers to expend their anger in the newspapers, and to appeal to the powers for concerted action against the pretensions of the United States.

The comments of the Spanish papers are exceedingly severe on the Princeton students because of the recent insult to their baby king by the American undergraduates.

Clothing Firm Assigns.

COLUMBUS, O., March 13.—As a result of the failure of the clothing firm of Rothschild, Baum & Stern, in Rochester, N. Y., Wednesday, the Union Clothing company, Solomon M. Levy, proprietor, made an assignment yesterday to James M. Butler. The assets are valued at \$100,000; liabilities, \$125,000.

An Old Citizen Gone.

WILMINGTON, O., March 13.—Joseph R. Moon, for nearly three-quarters of a century a resident of Clinton county, died suddenly at his home in Martinsville yesterday at the age of 94 years. He was an eminent Universalist in religion, and a stalwart Republican in politics and a citizen above reproach.

Floods Continue in Germany.

LONDON, March 13.—A dispatch to The Standard from Berlin says that the floods continue in Germany, and many villages have been submerged and the inhabitants have fled. The navigation of the Rhine and work at most of its quays have ceased.

Smallpox in Prison.

DAYTON, O., March 13.—William Anderson, colored, committed to the city workhouse in this city several months ago for carrying concealed weapons, died at that institution yesterday. His death was due to smallpox, and he is the fourth victim.

Robber Hanged by a Mob.

RAYVILLE, La., March 13.—Budd Love, colored, who had robbed a store at Oak Ridge, was hanged by unknown parties last night.

ITALY HAS TROUBLES

King Menelek Advancing With His Army.

GEN. BARATIERI HEARD FROM.

He Has Arrived in Massowa and Explains His Part in the Recent Disastrous Battle—Italy's Future Policy Will Be Strictly on the Defensive—Fearful Slaughter of Italians.

ROME, March 13.—Advices received from Africa say that King Menelek's army is advancing slowly and has now reached Entisico, midway between Adowa and Adigrat. Communication with Kassal is unbroken. Osman Digma is now at Galu Sit.

General Baratieri has arrived at Massowa in a physically and morally prostrated condition. He admitted to a correspondent of The Tribuna that he had yielded to a rash impulse in making the attack which led to the disastrous defeat at Adowa. He also admitted that he had no direct orders from the government. He knew nothing of General Baldissera coming at the time and therefore was not influenced by any question of amour propre, but solely by the difficulties of revictualing, which would have compelled a retreat and have opened a road to the Shoans. All of the generals, he said, were confident that even a partial victory would put an end to an untenable position and would cause the Shoans to withdraw. The difficulties of the ground, he held, was cause of the plans miscarrying. He deeply deplored the disaster, but had nothing to reproach himself with, and was ready to meet any charges and to endure the end of the consequences of his misfortune.

The Italia says it understands that the government will be hereafter strictly on the defense in Africa.

It is learned that after the battle at Adowa only 17 per cent of the Italian army answered their names at rollcall.

Twelve hundred mules for the use of the Italian army have been shipped from Larica, island of Cyprus, to Massowa.

Italians Leaving the Country.

PARIS, March 13.—The railroad trains crossing the frontier from Italy are crowded with Italians who are leaving that country to escape military service in Africa.

STEAMER RIO DE JANEIRO SAFE.

She Had Run Out of Coal and Put Back to Honolulu.

SAN FRANCISCO, March 13.—The steamship Alameda which arrived here yesterday afternoon from Australia, Samoa and Honolulu, brought news of the safe arrival of the missing steamship Rio de Janeiro at Honolulu on March 1. The Rio left this port 35 days ago for Yokohama and grave fears were entertained for her safety. Reinsurance of the ship and her cargo had already begun.

According to the news received from Honolulu bad weather and heavy westerly winds prevailed for several days after the Rio left San Francisco. For eight or nine days the gale was extremely severe, with the barometer falling all the time. On the 25th the coal supply ran short, and it was decided to turn around and make for Honolulu. The officers thought there was more chance of reaching Honolulu than there was of making Yokohama.

The state rooms aft were torn down and fed to the furnace to keep the steam going. Even the mizzen mast-head had to come down and go into the furnace. Finally land was sighted and the Rio arrived as stated. Beside the damage wrought to substitute coal the steamer sustained no injury whatever. She took on 1,000 tons of coal and resumed her voyage to the Orient the same night. Her passengers were not allowed to go ashore.

FIRE IN A LODGE ROOM.

Several Secret Orders Suffer From a Blaze in Detroit.

DETROIT, March 13.—Knights Templar and several subordinate lodges of the Masonic order suffered severe damages last night in a stubborn fire in the upper stories of the Wayne County Savings bank building, a 5-story structure on West Congress street. The blaze ignited from an electric wire in the fifth story, which was tenanted by Detroit commandery, Knights Templars.

The loss to the Knights and other lodges includes 400 fine uniforms and elegant furnishings and equipments, in all amounting to upward of \$40,000. The building is damaged about \$10,000. Although the fire was mainly confined to the top story, The Wayne County Savings bank and the United States engineer's office in the lower floor suffered minor losses. All the losses are believed to be fully covered by insurance.

NEW MILFORD, Conn., March 13.—A rear-end collision between a freight train and a snow plow occurred yesterday on the Berkshire division of the New York, New Haven and Hartford railroad, near Kent furnace, about 10 miles north of here. Two men were killed and seven or eight others injured. The dead are: J. Henry Murphy, conductor, of Pittsfield, Mass., and Jeremiah Nolan, assistant roadmaster. The most seriously injured were: Frank Murphy, a brother of the conductor, who sustained broken ribs and other injuries, and Max Freeman, a German train hand, who was injured about the head. Six other men were slightly injured.

KENTUCKY'S TROUBLE.

Everything Quiet but No United States Senator Was Elected.

FRANKFORT, Ky., March 13.—An extra squad of police were marched to the capitol yesterday to preserve order. Senators James and Walton, who had been unseated in the senate Wednesday in retaliation for the partisan ousting of Kaufman, Democrat, in the house, slipped into the house early, and before anybody was on guard, it being their object to sit quietly till the joint assembly convened at noon, when they would demand their right to vote for senator.

The house passed several bills, and the senate was also engaged in routine business, but the proceedings were not watched with much interest. The members would sit in their seats only a short time, and then go take a bird's-eye view of the growing crowd in the rotunda outside.

The police forced the crowd surrounding the house door to go into the lower rotunda just before the joint session was called.

The crowd downstairs extended out into the statehouse yard, and the push and jam were terrible.

At 12:05 Chairman Worthington called the joint assembly to order. At the call of the roll of the senators it seemed evident there was a disposition on the part of the Republicans to break the quorum. The rollcall developed 130 members present and voting, necessary to a choice. 66. Bronston, Democrat, called for the reading of the journals. Ward, Republican, objected. Barnum, Republican, wanted to know whether the journals of the joint assembly should be read or the journals of both houses. Bronston, Democrat, said the law contemplated no such thing as the journal in joint assembly, that the law prescribed the journals of the respective houses should be read each day.

After a round of 15 minutes Senator Salyers (sound money Democrat), in order to settle matters, moved that the reading of the journal be dispensed with. The chairman ruled accordingly and the ballot for senator was begun.

Lieutenant Governor Worthington made a ruling on the quorum question, declaring that not only must 70 members be present, but voting.

This seems to put a quietus on the senatorial question this session. It seems impossible that either party can muster that number. The ballot proceeded quietly, the Republicans to a man refusing to vote. The ballot resulted: Blackburn, 51. Carlisle, 12; Buckner, 1. No election.

WASHINGTON DEMOCRACY.

Delegates Selected to the National Democratic Convention at Chicago.

WASHINGTON, March 13.—The district Democracy held its convention yesterday to choose delegates to the national convention at Chicago. A "combine" slate was fixed up embracing delegates from the several sections of the city and despite many vigorous efforts to break it went through with the exception of Edwin Forrest, who was beaten by George Killen by three votes. The delegates to Chicago are Robert E. Mattingly, Frank P. Morgan, John Boyle, William Holmead, George Killen and E. L. Jordan.

During the fight against the combine frequent direct charges were made that its members were hostile to the administration and were in favor of free silver but they succeeded in conducting their campaign without committing themselves, save in the general endorsement given the administration in the platform adopted. This platform indorsed the administration of Grover Cleveland, particularly the bold stand taken on the Venezuelan question, the enunciation of the Monroe doctrine being declared a correct interpretation of true Americanism, expressed sympathy for those engaged in the battle for freedom in the island of Cuba, and cordially indorsed the expression of that sympathy contained in the joint resolutions of the senate and house.

The plank contained in the Democratic national platform of 1856 and directed against the Know Nothing party of that day, was put in the resolutions. This declared that a political crusade in the nineteenth century against Catholic and foreign-born citizens is contrary to the genius of our institutions, and can not be too severely condemned.

There was a significant absence in the platform of any expression on the silver question.

The A. P. A. plank was not vigorous enough for Mr. Dennis Callaghan and he made a vigorous but unsuccessful fight to have substituted for it a set of resolutions denouncing the A. P. A. in the bitterest language.

The endorsement of the administration was received with mingled cheers and hisses and evoked a hot anti-Cleveland speech from ex-Congressman Turner, who has been practicing law here since his retirement from active participation in Tammany Hall affairs.

HONDURAS UNDER MARTIAL LAW.

It Will Remain So Until the Revolution in Nicaragua Is Ended.

TEGUCIGALPA, March 13.—The whole of the republic of Honduras has been placed under martial law pending the settlement of the civil revolt in Nicaragua, in which the president of Honduras has espoused the cause of President Zelaya's government against the rebels.

The near approach of the contending forces in Nicaragua to the Honduras frontier and the disposition of the president of Guatemala to interpose for the settlement of the war, are the considerations that made the step seem advisable of placing the country under martial law.

DUNKARD MOVEMENT

Three Hundred Will Soon Start For Dakota.

FORMING A COLONY THERE.

They Expect to Be Able to Follow Their Old Order of Worship Without Outside Interference—An Epileptic Attacked by Hogs—An Ex-Convict's Miserable Fate.

LOGANSPORT, Ind., March 13.—A. B. Peters of Condo, N. D., is visiting Mexico, Florida, Denver and other points in Cass and Miami counties, which are settled by the religious sect styled Dunkards, or Brethren. Mr. Peters is an exceptionally intelligent member of this queer sect, and is working in the interest of the church in organizing a colony of people to accompany him to Condo, which place is settled entirely by Dunkards.

A large number of people have already arranged to go, and are disposing of their property preparatory to starting on the 24th of March. On that date Mr. Peters expects to leave Chicago at the head of 300 emigrants from the Dunkard settlements in this part of the state. Among the inducements offered are government lands, fine climate, excellent timber land, certainty of crops and a home where they can practice the religious beliefs of their church undisturbed by other denominations.

They indulge in many queer practices in their interpretation of the scriptures, and have an instinctive horror of worldly frivolities. Owing to the surroundings of the settlements in Indiana, however, it has proven a difficult matter to train their children according to the church doctrines, and a split in the church resulted, one branch being known as the Progressive Dunkards and the other as the Old Order. A large number have, therefore, embraced the opportunity to join the colony for the purpose of living in an atmosphere where their children will not be surrounded by worldly influences.

ATTACKED BY HOGS.

An Epileptic Narrowly Escapes Being Devoured by Them.

MUNCIE, Ind., March 13.—Paul Layden of Lima, O., had a narrow escape from being devoured by hogs at the home of George Martin, near here. Layden stopped at the home of Martin to get something to eat. He is subject to epileptic fits and, in passing through the barn yard, he was seized with one, and fell to the ground unconscious. He lay there some time, when a drove of hogs began tearing his clothes. The ferocity of the hogs grew until they began biting his flesh. In a short time his body would have been frightfully lacerated, only for the timely arrival of Mr. Martin, who was attracted by the noise of the drove, and hurried to the rescue. Martin purchased a ticket for the man and sent him home.

A MISERABLE FATE.

James Winters, an Ex-Convict, Paralyzed and Without Friends.

OHIO FALLS, Ind., March 13.—A most pitiable fate is that of James Winters of Rush county. Three years ago he shot into a party in a carriage, whom he thought were gaying him. A young lady was seriously wounded, and Winters was sentenced for two years.

During his trial, while in court, he was suddenly paralyzed from the hip down, and has ever since been helpless. Three men under Sheriff McFarland of Rush county had to carry him to the train, and when he was released from the steps of the Rush county courthouse yesterday he was utterly penniless, without relative or friend; the most miserable convict ever released from the prison south.

Maniac on a Train.

TERRE HAUTE, Ind., March 13.—A Pullman sleeping car on train No. 3 of the Chicago and Eastern Illinois was taken possession of by an armed maniac last night, and held by him against all the crew and passengers. The conductor succeeded in locking him in the rear compartment and he was unable to get at the passengers, who fled to the front of the train. The local police succeeded in arresting him here without harm, although every chamber of his 38-caliber revolver was loaded. The maniac has been identified as J. D. Cummings, a prominent merchant of Englewood, Ill. Cummings has no recollection whatever of the affair, and his talk is incoherent.

Railroad Ordered Sold.

INDIANAPOLIS, March 13.—In the case of John E. Davidson and W. H. Barnes, trustees, vs. the Grand Rapids and Indianapolis Railroad company, Judge Woods of the United States circuit court yesterday entered a decree of foreclosure and ordered that the road be sold at public auction in Grand Rapids at a time to be fixed by the master in chancery. John F. Lawrence of Grand Rapids was appointed master in chancery to conduct the sale.

The Annual Cry Revived.

ROCHESTER, Ind., March 13.—During the past two weeks the growing wheat has been badly injured in this county. When the snow melted, a month ago, the plants were in vigorous condition, but the cold winds since then have caused the fields to turn brown, and a large proportion of the plants appear to be dead. An increased acreage was sown last fall, but the harvest will certainly be a short one.

A ROOM for McKinley has been launched at Louisville. The Ohio man's admirers say the delegation from Kentucky must be straight out for the Buckeye candidate.

THE Republicans in the lower House at Frankfort dilly-dallied with the Dunlap-Kaufman contest until their man Dunlap became disgusted and withdrew from the case. Then they unseated Mr. Kaufman. Mr. Dunlap has refused to qualify, so there's another vacancy in the House.

BR'ER DAVIS is pretty shrewd, and in supporting Governor Bradley for President is "casting an anchor to windward." The Governor of course doesn't stand much show for the Presidency, but he will distribute the "pie" in this State of his party wins next fall, no matter who is elected Chief Executive. Br'er Davis is looking out for some of the "pie," and he'll be pretty apt to get it, the other fellows to the contrary, notwithstanding.

LIEUTENANT GOVERNOR WORTHINGTON ruled Thursday that it requires seventy members to compose a quorum of the Legislature in joint assembly. Some Republicans had secured an opinion from Senator John Sherman to the contrary, but Col. Worthington let them know that he knew about as much as the Ohio statesman on this subject, and a little more. The chances of electing Senator Blackburn's successor at this session are now slimmer than ever. The only way out of the trouble is for Republicans and Democrats to unite on some one.

INDUSTRIES AND IMPROVEMENTS.

What is Going On in This Line in Kentucky.

Middlesborough is soon to have a stove foundry.

An oil well will be sunk at Pineville in the spring.

Albany's new bank will soon be ready for business.

The Blaine oil well has reached a depth of about 165 feet.

Morehead is to have a bank and a cannery factory.

A new Christian Church will be built at Cynthiana this summer.

The Oddfellows contemplate building an opera house at Somerset.

Lexington is talking of a railroad to some point on Kentucky river.

The Knights of Pythias will build a handsome temple at Hopkinsville.

Several oil wells will be sunk in the vicinity of Barbourville in the spring.

D. D. Poindexter, of Marcellus, has patented and will manufacture a harrow.

During 1895 the mills of the Kentucky river cut about 190,000 poplar logs and bought about 95,000 new logs. There are now cut and in the tributaries of the Kentucky river, waiting on that much prayed for tide, 210,000 sawlogs, and over half of them are new—of this winter's cut.

Imperial Toilet Cream at Armstrong's.

Peculiar Accident.

At Cynthiana a man employed at Abdallah Park fell from a box, catching his chin on a large hook which penetrated the flesh to the tongue. Luckily a chain was hanging near, by means of which he released himself.

THE bill for the government of cities of the fourth class to permit a vote to be taken on the question of issuing bonds for school purposes has been passed by the Legislature.

Christian Church.

All members of the Christian Church are urged to be present Sunday morning at 10:45 o'clock. Proposed improvements to the building and other matters of importance will be considered.

The Ideal Panacea.

James L. Francis, Alderman, Chicago, says: "I regard Dr. King's New Discovery as an Ideal Panacea for Coughs, Colds and Lung Complaints, having used it in my family for the last five years, to the exclusion of physician's prescriptions or other preparations."

Rev. John Burgess, Keokuk, Iowa, writes: "I have been a Minister of the Methodist Episcopal Church for fifty years or more, and have never found anything so beneficial, or that gave me such speedy relief as Dr. King's New Discovery." Try this Ideal Cough Remedy now. Trial bottles free at J. James Wood's drug store.

A HOT ROAST.

The Editor of the Carlisle Mercury Calls Down the Courier-Journal.

[Carlisle Mercury.]

The effort of the Courier-Journal to create sympathy for its pet ideas by charging that Senator Weissinger died with the pneumonia because a few silver fanatics "cussed him to his back," would be funny if it were not so disgusting. Such methods of journalism are to be deplored, and very few people are brutal enough to fortify a cause with a corpse. Even the members of a legislative body were decent enough to prevent any one from "slipping into the United States Senate through the grave of poor Isaac Wilson," but it seems that we have found a great "moral engine" with less of the sensibilities of decency than even a Legislature. If the managers of the Courier-Journal could have heard the expressions of disgust from its friends when they read its "rot" last Tuesday they would have discharged the originator of the idea that night. The fact is no one ever "persecuted" Rozel Weissinger, and it would not have been safe to have tried it. He was somewhat in that line of business himself. What do you think would have become of Jo. C. S. Blackburn, Mr. Courier-Journal, if persecution would give a man the pneumonia? Rats!

LEAVE orders for awnings at Klipp & Brown's.

JUDGE HUTCHINS received a letter from Governor Bradley Thursday authorizing \$100 reward for the capture of Albert Garrett, who shot John Garrett at Murphysville a few days ago.

REV. FATHER T. S. MAJOR, of Frankfort, will deliver a lecture at St. Patrick's Church, on Tuesday evening, March 17. Subject, "Ireland." Father Major is a very interesting lecturer, and no doubt many of our citizens will be delighted to have an opportunity to hear him. Admission 25 cents.

At Nicholasville, Ministers Helm, Willis and Wright, who are conducting a protracted meeting at the Methodist Church, in the name of that church asked Judge T. J. Scott, who is holding Circuit Court, to adjourn every morning at 10 o'clock and attend services. Judge Scott declined the request on the grounds of too much business.

ABERDEEN Journal: "George Enis and George Jones, the two boys who left here about three weeks ago in a skiff, and were afterwards reported drowned at Manchester off the John W. Ailes, arrived home last Thursday night. The boys are satisfied now that towboating is not what it is cracked up to be, and hereafter will keep close to home."

THE fourth verdict for murder has been rendered in the case of the Commonwealth against Dr. J. L. Massie at Owenton for the killing of Jesse Honaker, and the penalty of life sentence inflicted. The case is a most remarkable one from the fact that the Court of Appeals has reversed it three times and sent it back for trial. Immediately after the last sentence was passed the attorneys for the defense made a motion for a new trial. It was overruled, and it will again go to the upper court for the fourth time.

THE Christian Church at Winchester, Rev. W. S. Keene, pastor, in addition to paying its pastor a good salary and contributing largely to every good work, has for the past year sustained a missionary in Nankin, China, Dr. W. E. Macklin, a native of Canada. He is a physician and by healing the bodies of the Chinese has been enabled to gain their confidence, and his success in the mission field has been remarkable. The church has about 550 members but is by no means a wealthy church; yet it is the only church of that denomination in the South to sustain a missionary unaided.

SEEMS as if consumption always picks out the brightest and best. Fully one-sixth of all the deaths that occur in the world are caused by consumption. Many things were once considered impossible. It would be strange if medical science did not make some progress. The telegraph and telephone, the photograph, the electric light—all were once impossible, and once it was impossible to cure consumption. This was before the time of Dr. Pierce's Golden Medical Discovery. Taken according to directions, this standard remedy will cure 98 per cent. of all cases of consumption. Consumption is caused and fostered by impurity in the blood. It is cured by purity and richness in the blood—surely, certainly cured by the "Medical Discovery." It builds up solid healthy flesh and vigorous strength.

Dr. Pierce's Common Sense Medical Adviser, a 1008 page medical work, profusely illustrated, will be sent free on receipt of 21 one-cent stamps to cover postage only. Address, World's Dispensary Medical Association, Buffalo, N. Y.

Sour

Stomach, sometimes called waterbrash, and burning pain, distress, nausea, dyspepsia, are cured by Hood's Sarsaparilla. This it accomplishes because with its wonderful power as a blood purifier, Hood's Sarsaparilla gently tones and strengthens the stomach and digestive organs, invigorates the liver, creates an appetite, gives refreshing sleep, and raises the health tone. In cases of dyspepsia and indigestion it seems to have "a magic touch."

with severe pain across my shoulders, and great distress. I had violent nausea which would leave me very weak and faint, difficult to get my breath. These spells came oftener and more severe. I did not receive any lasting benefit from physicians, but found such happy effects from a trial of Hood's Sarsaparilla, that I took several bottles and mean to always keep it in the house. I am now able to do all my own work, which for six years I have been unable to do. My husband and son have also been greatly benefited by Hood's Sarsaparilla—for pains in the back, and after the grip. I gladly recommend this grand blood medicine." MRS. OF INTEREST TO JAILERS.

Nicholasville Judge Says They Can't Get Pay For Waiting on Examining Courts.

Judge Scott made a ruling in law at Nicholasville this week that will be watched by jailers throughout the State. Jailer Welch in his account to the county for services had \$52 charged for waiting on court in misdemeanor cases and on the Fiscal Court. The services were charged at the rate of \$2 in each case. County Attorney Hoover refused to allow the bill. Welch entered suit. Hoover for the county demurred.

Judge Scott sustained the demurrer in all the items except that of waiting on the Fiscal Court. Welch was allowed \$16 of the \$52 for this.

Judge Scott decided that the State provided no pay in the examining court for criminal cases.

Mr. Welch says that in future he will refuse to wait on the court, and the question arises whose duty is it to do so? Jailer Welch will appeal the case to a higher court, and some of the leading lawyers say he will win it.

Sent with positive proofs (sealed) free to any man on application.
ERIE MEDICAL CO., BUFFALO, N. Y.

Beginning Friday

We will offer every week on above mentioned day some special value for cash. The confidence of the people is the greatest asset we possess though it isn't in our bank book, and you may be assured we will do all to retain and nothing to abuse it. When we say bargain it will be one. Not a make-believe but a sure enough. We invite your best dry goods criticism. We want it. It's to our interest. The better you know values the sooner you'll appreciate our offerings and understand why cash is the only carrier that can take them away. We reduce profits to a minimum in these sales in consideration of cash. We can not give credit. The rule applies to all. Cash is king.

FRIDAY, 9 to 11 a. m.—It seems incredible but the proof of the statement is in the buying and that rests with you. Haven't you paid 25 cents for English Cashmere, cheap, cottony stuff which soon took on the grayish cast that's such an eyesore, and now comes knocking at your purse, a real all wool double width Serge for the paltry sum of 19 cents. We have it in black and colors and if you are not well skirted for the shirt waist season it's not our fault, but you will be if you are the far sighted bargain lovers, we think. What shrewd woman will miss the chance to get a 40 cents value for 19 cents.

FRIDAY, 3 to 5 p. m.—Kaikai and Habutai Wash Silks, plain and corded, for 19 cents a yard. Bring samples of buyings at other times to be convinced by the invincible argument of comparison. You never bought at any price a better quality. It's the best in the market, and the price? Well who can say 95c. is not the smallest of sums for a silk waist? Cash and two hours are the only limits of this opportunity.

HAWKINS' MURDERER.

Fuller Particulars of the Sad Tragedy at Flemingsburg—A New Theory.

Detective Britton, of Williamsburg, O., returned from Flemingsburg last evening. His bloodhounds were not successful in their efforts to run down the murderer of Thomas J. Hawkins, whose sad death has been mentioned. It is learned that the dogs followed a trail from the scene of the shooting to a barn near the outskirts of the town, but the Times-Democrat says they failed to point any definite suspicion upon anyone, and adds that there seems to be no definite theory as to the guilty party.

Fuller and more accurate details of the tragedy are thus given by the Times-Democrat: "After the fire of Monday morning the grocery store of Charles J. Sutton had to be guarded, as the back windows of the second floor were out and the elevator shaft was open from the top.

"The first night Mr. Sutton and Robert Jacobs stood guard, and some time in the latter part of the night they heard noises which convinced them that some one was on the metal roof of the one-story annex at the rear of the store and was either in or attempting to get into the second story. They ran out and raised an alarm which brought others to the scene, and the house was closely surrounded and watched till daylight, when a search revealed the fact that no one was to be found in the building. Tuesday night T. J. Hawkins, who had been clerking for Mr. Sutton, stood guard, with Mr. Jacobs for his companion. Between 2 and 3 o'clock they heard noises which led them to believe some one was on the roof.

"After listening for some time they went out in the yard back of the store, Hawkins being in advance. It was quite dark and Hawkins could see no one, but soon after stepping outside Hawkins fired his pistol in the air to frighten the supposed burglar, but almost immediately a shot rang out in response, as he thinks, from the roof of the one-story annex, and he at once felt that he had been shot. He fired two more shots before falling, and Jacobs fired three or four shots, though the latter was so excited that he does not clearly remember the exact order of the occurrences following the first shot. Hawkins staggered and fell to the ground, and in a moment called to Jacobs for help, saying: 'I'm shot in the leg.' Jacobs ran to him and lifted him up and found him bleeding from a wound under the left shoulder. He gave the alarm and when the neighbors reached the spot he was carried into the store and surgical aid summoned.

"The ball struck and lodged against or in the spinal column, completely paralyzing the body below that point. It also seems in its course to have penetrated the cavity, as internal bleeding was clearly apparent. Thursday morning he passed away. Thus perished as noble-hearted a young man as this city possessed. He was about thirty-four years of age and leaves a wife, nee Ioline Ashton, and one bright little daughter to mourn their irreparable loss. He was a member of the Fleming Lodge No. 30, I. O. O. F., and as soon as the lodge could meet they offered \$250 reward for the arrest and conviction of the person guilty of the murderous assault."

From parties who were at Flemingsburg yesterday it is learned the dogs followed a trail from the scene of the shooting out in the country some distance, then around and back to town. Afterwards as the dogs were passing the jail they took a trail and followed it to the jail door, and many believe the negro, Wm. Jackson, who had been arrested and jailed, is the guilty party.

Another theory advanced by some people is that the shooting was accidental, that in the excitement and the dark one of the shots from Jacob's pistol struck Hawkins. This was talked of at Flemingsburg yesterday.

Hawkins' funeral occurs at 2 o'clock this afternoon and will be conducted by the Oddfellows.

Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. At J. James Wood's drug store.

GARRETT ARRESTED.

The Murphysville Pistol-User Captured This Morning at Falmouth.

A telegram was received by 'Squire Bramel this morning from officers at Falmouth asking what reward had been offered for the arrest of Albert Garrett for shooting John Garrett, and who had offered it. The supposition is that the Falmouth officers have Garrett "located," and that his arrest will follow. Garrett's wife left for Falmouth Wednesday, going by way of Mt. Olivet, and Detective Fitzgerald was notified to go there and lay for Garrett.

A later telegram to 'Squire Bramel from Marshal Dickson, of Falmouth, stated that Garrett was arrested this morning, and that Detective Fitzgerald had left for Maysville with his man.

THE BULLETIN stated yesterday that Garrett's arrest was confidently expected.

As will be seen elsewhere a reward of \$100 had been offered for him by the State.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know

that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 33 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of *Dr. H. Pitcher* is on every wrapper.

Children Cry for Pitcher's Castoria.

EMBEZZLEMENT AND FAILURE.

Big Wholesale Boot and Shoe House in Cleveland Forced to the Wall.

CLEVELAND, March 13.—The big wholesale boot and shoe house of Chiles, Groff & Company, at 82-84 Bank street, was forced to the wall late yesterday afternoon by the embezzlement of a large sum of money by William H. Huntington, the junior and financial man of the firm.

The failure was precipitated when chattel mortgages covering the entire stock and book accounts were executed by the firm and individual mortgages were given by the senior member of the firm on all his property. The first mortgage filed was one for \$125,000 on the suburban farm of Henry B. Chiles in favor of the Converse Rubber company of Boston. Mr. Chiles also gave a mortgage on his house on Prospect street to the National bank of Commerce. The firm's mortgages aggregate \$32,977.16, covering everything it possessed.

The total assets of the firm are estimated at \$84,000, of which \$75,000 consists of stock, and the remainder of book accounts, and both are subject to shrinkage. The liabilities are unknown, but are believed to be very heavy.

Chiles, Groff & Company is one of the oldest firms in the city and has always been considered as solid as a rock. The members of the firm are Henry B. Chiles, Henry R. Groff and William H. Huntington.

The embezzlement was first discovered a day or two since, and when Huntington was confronted with the charge, he confessed that he had taken \$40,000 of the firm's money. It is believed that the amount will reach \$100,000.

Huntington, who is at home ill from the effects of the exposure, was seen yesterday evening and admitted that the charge was true. He said he had been taking money for 25 years and that most of it had been used in the payment of his household expenses. He said he could not live on what he got from the business. He said he had given up his house and lot and did not know what else he could do. Mr. Chiles is completely prostrated and for a time last night his life was despaired of. He and Mr. Groff are utterly ruined. It will be impossible to give even an estimate of the liabilities until the affairs of the firm are put into shape.

PROTECTING SONG BIRDS.

The American Eagle Can Soar With Freedom in Ohio Hereafter.

COLUMBUS, O., March 13.—Song birds and other birds that do not sing were the subject of an hour and a half discussion in the house. It was caused by the third reading of the bill by Mr. Dutton to protect the song birds of the state, by prohibiting absolutely the killing of the following: Sparrow (except English sparrow), nuthatch, warbler, flicker, vireo, wren, robin, catbird, tanager, bobolink, bluejay, oriole, grosbeak, creeper, redstart, waxwing, woodpecker, hummingbird, lark, cuckoo, thrush, swallow, bluebird, bunting, redbird, starling, purple martin, brown thrasher, American goldfinch, chickadee or ground robin, pewee or phoebe-bird, chickadee or titmouse.

On an amendment by Mr. Clendenen the American eagle was included in the list. A desperate effort was made to include the quail also, and Mr. Aldrich put in an amendment to that effect. The proposition was at first agreed to, then reconsidered and defeated. Finally the original bill, with the American eagle added, was passed and sent to the senate.

DISPLACING THE HORSE.

Some Highly Interesting Figures Showing What Electrical Inventions Are Doing.

The Popular Science News says that it has been estimated that electric railways have displaced in the United States no less than 275,000 horses, and the movement has not yet stopped.

That many horses would require about 125,000 bushels of corn or oats a day, enough to appreciably affect prices of those grains. It amounts to 45,000,000 bushels a year.

Furthermore, the loss of this commercial demand for these coarse grains in the cities means an enormous loss of tonnage for the railroads—about 62,500 carloads.

In addition to this, it is well to remember that the horseless carriages which are coming in vogue, and bid fair to be a success, will reduce still more the importance of the horse as a factor in the present age.

All of which is an illustration of the changing conditions in the industrial world, and of the interdependence of elements which at the first seemed to have little to do with each other.

C. and O. Emigrants.

Cincinnati Enquirer: "U. L. Truitt, Northwestern Passenger Agent of the C. and O., arrived Tuesday night with a party of seventy-five farmers from Minnesota and Nebraska, en route to the peninsula between Richmond and Newport News in Virginia, where they will settle upon cheap and fertile lands. Another party of thirty-five people from Michigan will join them at Charleston, W. Va., coming over the Toledo and Ohio Central. There has recently been a considerable immigration of this character from the Northwest, and other parties are expected as spring opens."

Why and How Thread is Numbered.

The question, "Why is spool cotton numbered as it, and why are the figures not used in regular order?" is often asked, says the Boston Journal of Commerce. The explanation is this: The numbers on the spools express the number of "hanks" which are required to wind a pound. The very finest spinning rarely exceeds 300 hanks to the pound, while in the very coarsest there is about a half pound in each hank. The more common qualities, however, those from which sewing thread is usually made, run from ten to fifty hanks to the pound, and the spools on which it is wound are numbered from ten to fifty in accordance.

UNION, Mo., March 13.—Dr. Arthur Duestrow, the millionaire murderer of St. Louis, who was convicted in the circuit court here a short time ago of killing his wife and baby in St. Louis, was brought before Judge Hirzel yesterday and sentenced to be hanged April 22. Duestrow will be sent back to the St. Louis jail for safekeeping.

Over a Hundred Have Died.

NEW YORK, March 13.—A dispatch to The Herald from Buenos Ayres says: The total number of deaths on board the Italian cruiser Lombardia, from yellow fever, according to The Herald's correspondent in Rio Janeiro, Brazil, is 104. Seventy-six of the crew are still ill.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

BAD TIMES?

Well, we should say so. Those Clocks and Watches are too badly out of fix to be of any use. They've lost their time entirely. You'll lose your time, too, if you're unprovided with good clocks and watches. We have a full supply of both, all accurate time-keepers and in perfect order. Better Watches than ours are not manufactured. Whatever the price of any watch we carry, it's the best of its kind and a full value. Get a timepiece; get the best; get ours.
